

Thorpe Speech Therapy Updates

Dear Parents/Guardians,

Now that 2024 is upon us and we have completed our first trimester at Thorpe Elementary School, I would like to take a moment to introduce myself and reintroduce myself to some of those who I have already had the pleasure of meeting.

My name is Jacqueline Stofflet and I am the Speech Language Pathologist here at Thorpe. The younger students refer to me as “Ms. Jackie” and the older elementary kids refer to me as “Mrs. Stofflet.” As a Danvers resident and Thorpe parent myself, it is both an honor and pleasure to be part of your child’s educational journey.

Speech therapy is a specialized service that focuses on enhancing communication skills, including speech, language, and social communication. Whether your child is working on articulation, language development, social skills, or other communication-related goals, my role is to provide individualized support to meet their unique needs.

I value the input and collaboration of parents and teachers. Your insights into your child’s strengths, challenges, and preferences are invaluable in tailoring our speech sessions to ensure meaningful progress.

I wanted to share that starting in January, I will be supervising a graduate student from Emerson College who is completing her masters degree in Speech Language Pathology. Her name is Mithra Rotherder and she will be completing her graduate student placement at Thorpe until May 2024. Mithra will participate in the planning and conducting speech therapy sessions under my supervision.

Please do not hesitate to reach out if you have any questions. I hope you and your families have a wonderful holiday season!

Warm regards,

Jacqueline Stofflet
